PRESS RELEASE

REPUBLICANS ANNOUNCE NEW WEBSITE

Dr. Al Restivo, chairman of the La Canada Flintridge Republican Club recently announced that the growing organization decided to improve the way it communicates with its members and other Republicans in La Canada Flintridge by creating a website to enhance communication. The website was developed by board member Nancy Maclean and contains information about the club, its meetings and its programs. Additionally it provides links to the state and federal party websites as well as links to the sites of local Assemblyman Anthony Portantino and State Senator Jack Scott (both Democrats). There is also a link to the website of local Congressman David Dreier and the White House.

“As we grew in size and influence it became apparent to us that we needed a way to provide a faster and more efficient way of communication with our growing constituency. I am delighted that Nancy, a relatively new member, jumped in with both feet to do the hard work of creating a first class website.” Restivo urged members and fellow Republicans to use the website as a means of staying up to date on local happenings in the Republican Party of La Canada Flintridge. The chairman invites local citizens to use the new website as a portal to important information about government and politics. “The next thing we plan to do is provide a portal for our young members of our Young Republicans Association. You can reach the website by going to lcfrepublicans.org.
