NEW REPUBLICAN CLUB BOARD MEMBER APPOINTED

La Canada Flintridge Republican Club Chairman Dr. Al Restivo recently announced that Nancy Maclean, a La Canada Flintridge resident for 10 years, has been appointed to the club's board of directors. In her new role Ms. Mclean will work closely Ernest Koeppen as co-chairperson of the club's public outreach program. In this new role, Nancy will responsible for content development of the organization's new website and for outreach programs into the community as assigned by the chairman.

Born in Croatia (former Yugoslavian republic), Nancy immigrated to the Los Angeles area and subsequently received her US citizenship in 1976. After receiving my BS and MS degrees in Quality Assurance, she worked in the Quality Assurance field for 25-years and recently retired from Mattel Inc. in El Segundo, as a World Wide Director of Quality. Prior to working at Mattel, Nancy served in a similar management position at Avery Dennison Corporation. Nancy and her husband Ron enjoy traveling to interesting places and share a passion for current and past political issues.

In making the appointment, Chairman Restivo noted that Nancy is a find for the club. "In these busy times it is difficult to find experienced and dedicated people to fill important volunteer roles in local organizations, we feel blessed that Nancy stepped up to fill a role we have not been able to fill adequately in the past." He noted. Citing the club's dramatic growth and activities over the past two years, Restivo pointed out that Nancy Maclean joins the club and takes on this important role as Republicans face the tough challenges of the coming 2008 presidential and congressional elections. "We've counting on not only Nancy's work in public outreach, but also for the management experience she brings from industry to our growing Republican presence in our city; to say that we are thrilled to have her is an understatement."

Nancy assumed her new role at the club's March board meeting and immediately began to create contents for what she terms, "a new and exciting website filled with information Republicans can use". Ms. Maclean will be one of the club's featured speakers at the May meeting teaming up with Chang Hung Yu. They will present a special program entitled "Growing up under Communism in China and Yugoslavia".
